

# Instant Electric Water Heater

**+255 22 2135834**

[info@plvdigital.co.tz](mailto:info@plvdigital.co.tz)

No Limescale

LED Digital Display

Automatic Thermostat

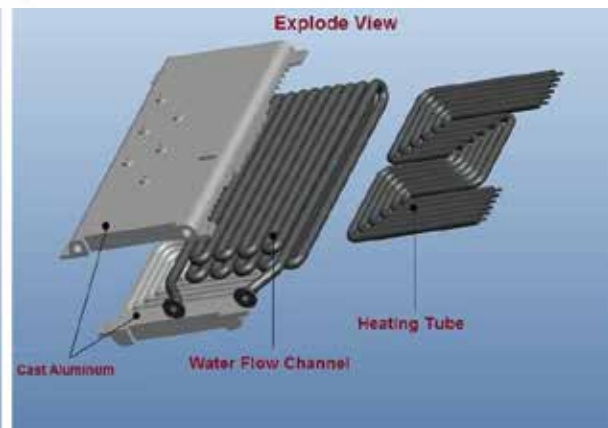

Touch Operation

## Specification

- ABS front cover, water splashing proof, corrosion resisting, ageing resisting.
- Adopts patent heating technology- enclosed loop heating system, instant for hot water with less heating loss, noao insulation material which totally separates water from electricity.
- Multi-layer structure heating chamber form a long circulating water channel, no limescale, long lifespan.
- ELCB safety function, touch key for test & reset, leakage indicator light display.
- Work indicating lamp display working condition.
- Electricity leakage protection, anti-scalding protection, over-pressure and overheat protection. Water and electricity isolation protection.
- Stepless rotary knob to adjust outlet temperature. Automatic thermostat.

## Technology Data

<b>Model No.</b>	TZFC35Z
<b>Phase</b>	1
<b>Voltage</b>	220-240V
<b>Wattage</b>	3.5kW
<b>Max. Amp. load</b>	14.3A
<b>Min. wire size</b>	1.5mm <sup>2</sup>
<b>Rated Pressure</b>	0.02-0.6MPa
<b>Min. water flow to activate</b>	1.2L/min.
<b>Water connections</b>	G1/2"
<b>Product Size</b>	347*212*75mm

A, It anti –corrosion, against Water Scale.  
B, It anti Electric Shock.  
C, It anti water leakage.
