Easy installation, power cord can be connected above or under the table-board

Easy operation, double selection for cold water and hot water; water flow rate is adjustable.

Nozzle is rotatable in 180° . convenient to use.

Technology Data

Model No.	SJB-30
Voltage	220-240v
Rated frequency	50/60Hz
Power	3.3kW
Overheat protection	50°C
Dry heating protection	70°C
Hot water flow	2L-5L
Water proof glass	IP25
Working pressure	0.04-0.4MPa
